Your credit card details will not be available for Servicedocs.com but only for the professional provider checking the credit card.

## FREE PUBLICITY

A great number of manufacturers produce user manuals, brochures and flyers only in the English language. Many resellers copy parts of these brochures, translate them in their local language and reprint the documents. Often these prints are made on paper with company letterhead. When you design such a brochure or flyer please send us a copy. In case Servicedocs.com thinks the information is valuable for publishing we upload the document and your company will have free publicity.
